

(3) any such information concerning President Slobodan Milosevic already collected by the United States should be provided to the Tribunal as soon as possible;

(4) the United States should provide a fair share of any additional financial or personnel resources that may be required by the Tribunal in order to enable the Tribunal to adequately address preparation for, indictment of, prosecution of, and adjudication of allegations of war crimes and crimes against humanity posed against President Slobodan Milosevic and any other person arising from the conflict in the former Yugoslavia, including in Kosovo;

(5) the United States should engage with other members of the North Atlantic Treaty Organization and other interested states in a discussion of information any such state may hold relating to allegations of war crimes and crimes against humanity posed against President Slobodan Milosevic and any other person arising from the conflict in the former Yugoslavia, including in Kosovo, and press such states to promptly provide all such information to the Tribunal;

(6) the United States should engage with other members of the North Atlantic Treaty Organization and other interested states in a discussion of measures to be taken to apprehend indicted war criminals and persons indicted for crimes against humanity with the objective of concluding a plan of action that will result in these indictees' prompt delivery into the custody of the Tribunal; and

(7) the United States should urge the Tribunal to promptly review all information relating to President Slobodan Milosevic's possible criminal culpability for conceiving, directing, and sustaining a variety of actions in the former Yugoslavia, including Kosovo, that have had the effect of genocide, of other crimes against humanity, or of war crimes, with a view toward prompt issuance of a public indictment of Milosevic.

#### ¶88.36 MESSAGE FROM THE PRESIDENT—U.S. ACTIVITIES IN THE U.N.

The SPEAKER pro tempore, Mr. BARRETT of Nebraska, laid before the House a message from the President, which was read as follows:

*To the Congress of the United States:*

I am pleased to transmit herewith a report of the activities of the United States Government in the United Nations and its affiliated agencies during the calendar year 1997. The report is required by the United Nations Participation Act (Public Law 79-264; 22 U.S.C. 287b).

WILLIAM J. CLINTON.

THE WHITE HOUSE, *September 14, 1998*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on International Relations.

#### ¶88.37 MESSAGE FROM THE PRESIDENT—AERONAUTICS AND SPACE ACTIVITIES

The SPEAKER pro tempore, Mr. BARRETT of Nebraska, laid before the House a message from the President, which was read as follows:

*To the Congress of the United States:*

I am pleased to transmit this report on the Nation's achievements in aeronautics and space during fiscal year (FY) 1997, as required under section 206 of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2476). Aeronautics and space activities involved 13 contributing departments and agencies of the Federal Government, and the results of their ongoing research and development affect the Nation in many ways.

A wide variety of aeronautics and space developments took place during FY 1997. The National Aeronautics and Space Administration (NASA) successfully completed eight Space Shuttle flights. There were 23 successful U.S. Expendable Launch Vehicle (ELV) launches in FY 1997. Of those, 4 were NASA-managed missions, 2 were NASA-funded/Federal Aviation Administration (FAA)-licensed missions, 5 were Department of Defense-managed missions, and 12 were FAA-licensed

commercial launches. The Mars Pathfinder spacecraft and Sojourner rover captured the public's attention with a very successful mission. Scientists also made some dramatic new discoveries in various space-related fields such as space science, Earth science and remote sensing, and life and micro-gravity science. In aeronautics, activities included work on high-speed research, advanced subsonic technology, and technologies designed to improve the safety and efficiency of our commercial airlines and air traffic control system.

Close international cooperation with Russia occurred on the Shuttle-Mir docking missions and on the International Space Station program. The United States also entered into new forms of cooperation with its partners in Europe, South America, and Asia.

Thus, FY 1997 was a very successful one for U.S. aeronautics and space programs. Efforts in these areas have contributed significantly to the Nation's scientific and technical knowledge, international cooperation, a healthier environment, and a more competitive economy.

WILLIAM J. CLINTON.

THE WHITE HOUSE, *September 14, 1998*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Science.

#### ¶88.38 PROVIDING FOR THE CONSIDERATION OF H.R. 4006
